

# Private Accommodation in Brighton (not organised by ISE Brighton)

Staying in private accommodation is when you stay in a hotel, rent a flat or arrange to rent a room by private agreement with a hotel, landlord or letting agency.

Longer term students may prefer to hire a flat for the duration of their stay. Long term lets of more than 6 months and short-term holiday lets are available through various letting agents.

If you would like information about Private Accommodation please telephone or email the accommodation officer to discuss options.

Typically flats in Brighton must be let on a ***minimum 6 month period***, with many agencies charging the full six-month rental fee in advance. Students are responsible for Utility Bills (water, gas, electricity, phone/internet, Council Tax) for the duration of the rental period.

As tenants, there is also a responsibility to keep the flat in good condition and return it at the end of the period in the same condition that it was received.

Living in private accommodation will limit your contact with English speakers and all living responsibilities like cooking, shopping and cleaning will usually be yours.

Short term accommodation in Brighton can be found using international accommodation search sites such as [Airbnb](#), [booking.com](#) or [TripAdvisor](#).

## Hotels, hostels, Bed & Breakfasts or Guest Houses

Hotel & Guest houses are also available in the city, please use the Visit Brighton (link) accommodation listings to find a hotel or Bed & Breakfast that suits you.

Prices are available on request from the hotel website or by contacting them directly.
